Use pictures and interactivity with your mobile web site

+ Power

Photos and videos attract interest and increase traffic in the showroom

+ Innovation

Be the first in your area of expertise to cultivate the difference

+ Interactivity

Develop a privileged relationship with your clients

Creation of sites accessible on all cell phones, WAP phones, or smartphones

For targeted marketing campaigns, we create your mobile site and take care of the programming of the interactive mailing.

Your objectives

Innovate, differentiate yourself, focus

The campaigns allow an interactive way to target your customer and generate contacts

Our service Mobisiteo

With mobisiteo, we propose to go further than just a simple SMS to a cell phone:

- Publicize new products with photos or videos
- Build contacts through promotional offers
- Personalize your message by showroom
- Geotag your showroom (GPS guidance possible on some phones)
- Add a link for immediate recall to the preset showroom

Our offer includes:

- Creating and publishing your mobile site for a period of one month
- Optimization of your contacts file for your mailing
- Predefined text to your interactive SMS
- Transfer of receipts, files, and contacts
